with

Pacific Open Bible Churches?

Great Places.

Pacific Open Bible is home to world class cities, centers of commerce, innovation and technology, as well as beautiful beaches, coastlines and mountain ranges. We are Alaska, Washington, Oregon, Idaho, Nevada, Utah, California, Arizona, and Hawaii.

Great Need.

The beauty of this region is surpassed perhaps only by the great need for Jesus. A 2008 Gallup poll comparing belief in God among U.S. regions found that only 59% of residents in the Western United States believe in

God, compared to 80% in the East, 83% in the Midwest, and 86% in the South.* This is a key mission field that has worldwide influence.

Clear Process.

Creative Models.

We have designed a process that will help you think through critical aspects of planting, while allowing freedom for Spirit-led innovation to reach the next generations.

Coaches.

We have experienced church planters who have been where you are, and have been trained as coaches. They will be there for you throughout your journey – they really love church planters!

Training.

From assessment to drafting a plan to executing that plan, our goal is to get you access to some of the best church planting resources that you can find anywhere.

Friends Who Get It.

Nobody really gets church planting like church planters. We'll provide opportunity for you to connect with others who are planting too. It's important to share our stories together.

Money.

We know – this matters . The Pacific Region has shown a willingness to invest financial resources into well-prepared planters on a matching funds basis.

Strategic Partnerships.

We have an ever-growing number of open doors into regional and national networks and leaders such as Wayne Cordeiro & New Hope, GHC, Griffith Coaching Network, Missio, Mark Driscoll & Acts 29.

Events that Inspire.

We often offer discounts and scholarships to strategic training events such as Exponential, Calibrate and Open Bible Planter's gatherings
